

MESHACH ARINZE | Frontend engineer

Lagos NGN | meshacharinze@gmail.com | [linkedin.com/in/meshach-ekene](https://www.linkedin.com/in/meshach-ekene) | github.com/meshach567

PROFESSIONAL SUMMARY

Skilled Front-end Engineer with 4 years of experience in frontend and 1+ year of backend designing, developing, and maintaining front-end web applications. Achieved measurable success in increasing page load speeds by 20%, leading to increased website conversion rates. Led the implementation of a new front-end development system which resulted in a 15% reduction in development time and a 20% increase in website performance. Adept in collaborating with cross-functional teams and delivering projects on time and budget.

WORK EXPERIENCE

Frontend Engineer - remote

10Billion

May 2024 – Present

London, England

- Participate in Bi-weekly stand-up meetings on Google Meet with teams and once-a-month meetings with co-founders and board officials, to discuss the progress of the development of a 10 billion website.
- Design and built the arc-of-progress, exponential tech, and manifesto page from Figma to code resulting in a 30% increase in productivity.
- Write clean, readable, and maintainable code with React, following the React design pattern for frontend engineers with a strong emphasis on scalability and efficiency.
- Created visual/interactive content in HTML, CSS, and JavaScript (we use React.js, Typescript, and TailwindCSS)
- Resolve conflict on the branch, comment on code changes, and receive constructive feedback from the team lead

Frontend Engineer

FuelMyHustle

July 2023 – Dec 2023

Nottingham, England

- Boosted website performance in next.js through code splitting and lazy loading, and reduced load times by 35%.
- Worked directly with the co-founder and other engineers, suggested improvement for the community
- Contributed to the community through Discord, by suggesting improvement
- Amplified team productivity by introducing best practices and efficient workflows, increasing output by 20%.
- Spearheaded the development of Team A, expanding platform functionality by 40% and driving user growth by 25%.

Remote Frontend Engineer

Trocah

July 2023 – Sept 2023

London, England

- Implemented robust security measures, safeguarding user data and maintaining compliance with industry standards, resulting in a 50% reduction in security incidents.
- Designed and built a FAQ section, improving user experience, and reducing customer support inquiries by 25%.
- Strategized and implemented 10+ React libraries, aligning technical solutions with business goals and increasing user engagement by 15%.
- Met with frontend teams to deliver high-quality projects on time, achieving a 95% on-time delivery rate.
- Adhered to the SOLID principle in React, leading to a 99% defect-free rate in deliverables.

Frontend Developer on-site

Sept 2021 – June 2023

TeamEloquent

Warri, Nigeria

- Orchestrated closely with cross-functional teams, including backend developers and designers, to ensure project delivery by 60%.
- Participated in project planning, estimation, and task prioritization, contributing to an 85% project deadline adherence rate.
- Integrated 5+ RESTful APIs for data retrieval and manipulation, ensuring proper error handling and data validation, leading to a 30% reduction in data-related issues.
- Resolved the conflict on my branch, enhancing maintainability and scalability, and improving customer satisfaction by 20%.
- Collaborated with the Backend team to implement continuous integration and continuous delivery (CI/CD) practices, reducing software release times by 50% and minimizing production issues by 30%

SKILLS

Programming language: Python, JavaScript, SQL

Technologies: React.js, Vue.js, Next.js, Angular.js, Nest.js, GraphQL, TailwindCss, Django, Prisma, Typeorm,

Database PostgreSQL, MongoDB Firebase MySQL,

Tools: Docker, Gulp, Webpack, Git, AWS, Azure, Contentful, Strapi

Libraries: JWT, Bcrypt, React Email, SendGrid, Zod, Formik, Shadcn

Methodologies: Scrum, Agile, BEM, Component Driven Design, Prototyping

EDUCATION

Petroleum Engineering | Bachelor of Engineering | Federal University of Petroleum Resource | 2018 – 2024 Warri
